2 Map visualisation

This section contains visualisations of the EMDB entry EMD-13294. These allow visual inspection of the internal detail of the map and identification of artifacts.

Images derived from a raw map, generated by summing the deposited half-maps, are presented below the corresponding image components of the primary map to allow further visual inspection and comparison with those of the primary map.

2.1 Orthogonal projections

This section was not generated.

2.2 Central slices

This section was not generated.

2.3 Largest variance slices

This section was not generated.

2.4 Orthogonal surface views

This section was not generated.

2.5 Mask visualisation

This section was not generated. No masks/segmentation were deposited.
