## 2 Map visualisation

This section contains visualisations of the EMDB entry EMD-13305. These allow visual inspection of the internal detail of the map and identification of artifacts.

Images derived from a raw map, generated by summing the deposited half-maps, are presented below the corresponding image components of the primary map to allow further visual inspection and comparison with those of the primary map.

### 2.1 Orthogonal projections

This section was not generated.

### 2.2 Central slices
